

Just off the press is a new book by a Campbell author, Luther Whiteman, whose ranch is on Bucknell Road. It's called "The Face of the Clam" and tells of the "dunites," a group of eccentrics living in the dune region near San Luis Obispo. Whiteman, whose first book, "Glory Road," was written in collaboration with a friend, has had a varied background which included work in lumber camps, a stretch with the Forest Service, copywriting, free lance writing, ranching and a few months spent as a "wine specialist" for the Wine Institution.

Plans are under way for the organization of a garden club in Campbell. Mrs. Harold Peck, originator of the idea, will have the first meeting soon. In addition to discussion of garden problems the new group hopes to have instruction in flower arrangement from Mrs. Monica Parr who is, in the opinion of most people, a genius at this art. Another enthusiastic supporter for the group is Mrs. George Wesley, who is busy planting her scented garden. Any interested women are urged to call Mrs. Peck at Campbell 3429.

A news story in this issue tells of the impending visit of the TB X-ray trailer. I have often wondered why it never came to Campbell but made frequent visits to neighboring towns. On inquiry I find that it comes on request and apparently for the last two years no one here has been interested in securing its services for the town. This visit has come about largely through the efforts of Mrs. Elfreda Runge, Grammar School nurse. You can protect your community health urging everyone you know to take advantage of this free service.

Campbell's own Paul Becker is doing all right with his radio program in Guatemala. Here's a sample of his style:

"You know the young lady who owns the Onix Shop is always trying to get me to advertise certain ladies' personal things that make me blush just to think of them. Now I can't name those things over the air but believe me she has 'em in all colors and shapes and sizes. Yes, some of 'em stretch two ways, too.

"I suggest that you get down there to see for yourself and save me any more embarrassment. Just tell her you heard about 'em on the radio and she'll understand."

Several neighboring communities are already making plans for their displays at the next Santa Clara County Fair.

An alert friend has called my attention to the sign now in a Campbell cleaner's window: "Ladies Cleaned and Pressed."

High School Plays Host To Youth Conference Saturday

On Saturday, Campbell Union High School will be host to the 1947 California Youth Conference at an all-day session which will include discussions by prominent educators from all parts of California.

The conference begins the preceding evening with a dinner meeting at Hotel De Anza at which Robert W. Crawford, superintendent of recreation for the City of Oakland, will be the speaker.

House Of Riches Gutted By Fire

Fire, last Thursday evening, gutted the House of Riches gift shop on Hamilton Road at Meridian. Smoke was first seen by an unidentified man who stopped in a nearby house and told the occupants. They, in turn, relayed the information by telephone to James Avila, owner of Avila's Market on the corner.

When Avila arrived he found smoke coming from the roof and immediately called the Willow Glen fire department and Alma State Forestry department.

The blaze, believed caused by defective wiring, was extinguished before any damage was done to the adjacent grocery store or the Hamilton Radio Shop on the other side.

Los was estimated at more than \$10,000 with only a minor portion covered by insurance, according to Mr. and Mrs. Harry Rich, owners of the distinctive shop. Included in the damaged stock was a large shipment of hand-made articles which had arrived from the East two days before the fire.

A complete redecoration and remodeling job has already been started and the Riches expect to be open again before Easter with an enlarged and up-to-the-minute gift shop complete with new stock. Last week's fire brings to the minds of Campbell residents the fact that there has not been a fire in the Campbell fire district, with the exception of a small grass fire, since last June. Less than three months is the previous record established without a fire.

UNION DISTRICT IMPROVEMENT CLUB

A group of interested persons met at the Union School on Friday evening to organize an Improvement Club for the district. C. H. Woods was elected president, Mrs. Nadine McDonnell, secretary, and Mr. William Murphy treasurer.

Committees were appointed to draw up a set of by-laws and to formulate plans.

An important meeting is to be held at the school Friday, March 14, to present the bond issue for a new school site and buildings.

Laurance Hill, principal of Campbell Union High School, is chairman for the all-day session on Saturday, which has hitherto been held on the campus of San Jose State College. For the previous seven annual sessions the conference has concerned itself mainly with juvenile delinquency but this year the topic, "recreation," has been chosen for the purpose of discussing all youth problems as well as delinquency.

With this in mind, Hill has secured some outstanding speakers. First on the program will be Mrs. Rollin Brown, president of the California Congress of Parents and Teachers, who will discuss "Parents as a Force in Directing Youths' Recreational Activities." Robert Crawford will again speak, taking as his topic: "Meeting Recreational Needs Through Youth Organizations." Mrs. Ruth Hedges, motion picture chairman, California Congress of Parents and Teachers, will speak on "Movies and Recreation."

Following this general session, discussion groups will take up the topics. Heading the group to discuss "Parents as a Force in Directing Youths' Recreational Activities," will be Dr. O. S. Hubbard, County Superintendent of Schools. Mrs. Rollin Brown will be the consultant and the panel members will be Mrs. Esther Pinkston, Mrs. F. Hale Jackson, H. B. Long and Joseph Gomes.

Discussing youth organizations will be Miss Vall Stark, Rev. Marvin Stuart, Frank Bramhall and Miss Catherine Switzer with Leonard Grindstaff, assistant superintendent of schools in Palo Alto, as chairman. Robert W. Crawford will be the consultant.

One of the most interesting of the discussion groups will be that which takes up "Movies and Recreation." Among the panel members will be Mrs. Hulda McGinn, executive secretary of Fox Productions Inc. Other panel members will be Miss Lucile Snyder, Mrs. Frank L. Drew and Dr. Lawrence B. White of the State Department of Education.

At the luncheon meeting Dr. White will speak on "Schools and the Recreation Program."

Attending the conference will be (concluded on page 8) social workers, recreational work-

1947 RED CROSS FUND

Red Cross Drive Well Under Way

Volunteer solicitors are doing their big job for the 1947 Red Cross fund drive in Campbell this week. The hard-working solicitors who get out each day, make their calls and collect the money, are on the job, according to Mrs. Harry F. Cousins, fund drive chairman and her co-chairman, Mrs. E. L. Farnham.

"These are the people who deserve the credit in a drive for funds," said Mrs. Cousins. "We are grateful to these volunteers who accept the job of making calls and ask Campbell residents to greet them and give gladly when they call."

Mrs. Cousins announced the names of chairmen of volunteer groups appointed at the present

time. Mrs. Ray Wood will serve as chairman of Campbell High School PTA and Mrs. Otto Hanson of the Moreland PTA. Frank Coombs is chairman of Cambrian District; Mrs. H. E. Wood of Willowhurst District, H. A. Butts of Keesling Gardens, and L. Carboni of the Southern District.

Headquarters for the fund drive are located in the office of the Campbell Water Company on West Campbell avenue. Either Mrs. Cousins or Mrs. Farnham will be at headquarters each day of the drive from 2 until 4 p.m. Solicitors may turn money in at this time. Contributions may be made at headquarters by anyone who has not been contacted by a volunteer solicitor.

Mrs. Hedegard To Present Deed

An event symbolical of Legion growth and community development will take place next Wednesday evening, March 12, in the IOOF Hall when Mrs. Nick Hedegard presents to Campbell Post 596 the deed to the property which her husband gave to the post before his death.

Located on Latimer near Esther Ave., the property is the future site of a Legion Hall which is planned to accommodate, not only Legion activities, but large community affairs such as meetings, dinners and dances.

Before his death a few months ago, Nick Hedegard, who was known as Campbell's unofficial mayor, was deeply interested in community development and it was his wish that the Legion Hall would, in addition to serving the needs of adults, be a place where the youth of the community might meet for wholesome recreation.

The public is invited to attend the presentation ceremony and Al Carter, Legion Commander, has sent special invitations to the presidents of all local organizations, church groups, PTA groups and other civic leaders.

Rex Fuller, chairman of the Legion Post building corporation, will accept the deed from Mrs. Hedegard on behalf of the Legion. Following the ceremony there will be a program of entertainment.

Dr. Heber Sotzin, professor of industrial arts at San Jose State College, will be the main speaker of the evening.

RETIRED ORCHARDIST DIES

After a short illness, Carl Schrader, 75, died at his San Jose home Tuesday. A retired orchardist, he was the father of G. K. Schrader, Campbell Cooperative Dryer manager. In addition he leaves his widow, Marie, and four other children, H. E. Schrader of Huntington Park, C. H. Schrader of Susanville, Mrs. L. G. Robertson of Napa and Mrs. E. P. Martin of San Jose.

Senior Class To Present Play

In any community the High School senior class play is always a happily anticipated event and in Campbell the standard of these productions has been very high. So it is no surprise to learn that there will probably be a record attendance at "Life of the Party" on both Thursday and Friday, March 13 and 14.

Directed by Dean Chamberlin, the play selected is a gay comedy about the Hughes family who never have a dull moment. The large cast has rehearsed diligently and a polished performance is expected.

The cast includes: Mr. Hughes, Wayne Sisk; Mrs. Hughes, Glenna Applegrath; Jean Hughes, Mary Monroe; Teddy Hughes, Ron La Mar; Ann Hughes, Gayle Brooks; Tommy King, Loren Sylva; Mike Tisdale, Charles Cutting; Sallie Frazier, Barbara Drent; Mildred Hughes, Chispa Gwynn; Ruth Coates, Pat Ralston; Mrs. Victoria Coates, Shirley Goodell; Hope Shuttleworth, Katherine Koller; Marysallie Vogulhut, Joy Jetton; Dottie Kiviller, Mariella Allinger; Charles C. Alter, A. Nickel; Snazzy Mitchell, Leonard Ellis; Walter Lipscomb, Raymond McVea.

DAY'S OUTING IN SAN FRANCISCO PLANNED

On Saturday, March 15, forty Campbell High School music students will attend the opera "Madame Butterfly" in San Francisco, which is being presented for two weeks by the San Carlos Opera Co. Miss Marjorie Green, Campbell High teacher, and Frank Triana, music director, will accompany the students. The trip will be taken by school bus with the students leaving at 9 a.m. A special tour of the Opera House is being arranged to add to the day's enjoyment.

Campbell Student Wins Art Award

Norwood Blackman of Campbell is one of the first prize Gold Key winners in the Regional Scholastic Art Awards competition, which is being co-sponsored for Junior and Senior High School students in Northern California by the Emporium in San Francisco. Norwood's art work was done in the classroom under the supervision of Miss Mary Lewis, Art Instructor in Campbell Union High School, and at the close of the Regional Exhibition at The Carnegie Institute in Pittsburgh, Pa., with the work of the other Gold Key winners to compete with entries from all over the United States. The National Jury will award thousands of dollars in cash prizes and over 70 scholarships to leading art schools to the winners.

The Emporium has received 1400 entries from schools in 44 counties of Northern California. The jury, composed of art experts and educators has selected 100 Gold Key Winners out of all entries submitted, and these, together with the honorable mention winners, will be exhibited to the public in The Emporium Auditorium, Service Building, from March 1 to 15.

Firefly Group Proves Active

The Fireflies, a club of girls under the Bluebird program, met Thursday at the home of their leader, Mrs. C. David Baxter, to hold a drawing for the role of "princess" in the Santa Clara County May Festival of Bluebirds. The winner was Linda Addison.

They also elected Patricia Baxter as president, Mary Anne Parysek as treasurer.

At a recent meeting the girls learned how to pot plants and plan to spend their next meeting making sewing boxes.

Although this club has had only three meetings it is already filled and will be unable to take more members. Mrs. Lester Titus has been helping with the activities but more help is needed as well as leadership for other girls who wish to form a Bluebird club.

The Fireflies are, besides the aforementioned girls, Carol Lynn Titus, Marcia Poore, Beatrice Noethig, Sally Yarnel, Jimmie Lee Prout, Freda Williams, Vena Solomon, Patty Lou Parks, Sharon Weeks, Anita Burd, Nancy Little, Freddie Jo Noonkester and Jane Polglase.

DAUGHTER BORN TO EARL M. PULLEYS

Mr. and Mrs. Earl M. Pulley are the parents of a baby daughter, Claire Louise, born February 25 at San Jose Hospital.

According to Ira Grim, postmaster, the Campbell Post Office will be in its new quarters by April 1 and on the same date city delivery will start.

Located on Campbell Ave. between First and Second streets, the new building will contain the latest in modern equipment for the handling of Uncle Sam's mail. Equipped, the building will be valued at approximately \$50,000. Owned by John Lynden, the construction work is being done by Judson and Son, San Jose contractors.

Although the building was scheduled to be finished the first of December, completion has been delayed due to the delays in obtaining materials.

Set flush to the adjacent library, the building will have a stucco exterior and will resemble the Willow Glen Post Office. Included are a large workroom and a lobby. All loading and unloading will be done in the alley behind the Post Office. Starting point for the new city delivery will be the corner of Campbell Ave. and Winchester Road.

The County Planning Commission is reportedly drawing up a chart for the Postmaster showing the numbers to be requested for those houses which do not have them. Grim expects to have this chart by next week.

Applications are now being taken at the Post Office for city delivery letter carriers as four additional men will be needed. Preference will be given to World War Veterans.

Also needed are two vehicles to be rented by the Post Office department and to be used in the delivery of mail.

Conservation Week March 7 to 14

General Warren T. Hannum, director of the State Department of Natural Resources and chairman of California's 13th Annual Conservation Week, commencing March 7, today urged every Californian to take a personal part in the state's Natural Resources Conservation program. The activities encompass the work of many state, federal and local agencies, as well as a host of industrial and civic organizations and emphasize the need for the wise use of land, water, forests, mineral, fish and game, and oil and gas.

General Hannum said that California retains her position as a leader in agricultural production, in lumbering, in the production of minerals, oil and gas and as a haven for sportsmen and recreationists because of the abundance of natural resources deposited within her boundaries.

To forcefully remind all citizens that the state's present and future progress depends upon the continued abundance of these important resources, conservation week, he said has been proclaimed by the governor of California annually for 13 years as a period of rededication to the principles of conservation. Governor Warren has, this year, stressed the need for personal participation in conservation activities. He has urged in his Conservation Week Proclamation that all programs initiated during the week of March 7-14 be continued throughout the year to the end that 1947 shall become known as Conservation Year in California and recognized as a year of accomplishments by our people in the prevention of waste and the conservation of natural resources.

Gen. Hannum, now directing the work of five state divisions concerned with the administration and development of the state's natural resources, emphasizes that without public understanding and close support the ultimate success of all resource programs will be seriously impaired and the future development and progress of the state jeopardized.

In outlining the program for the week he has called on the State Department of Education, all federal, state and local governmental units and numerous industrial and civic organizations to continue present movements and to activate new ones to further conservation progress in all parts of the state.

Conservation Week, March 7 to 14, is sponsored by the California Conservation Council, a private, non-political organization whose members include officials of governmental departments, educators and leaders of civic and industrial organizations. The Council endeavors to focus attention on the need for conservation education in the schools of California and to every member of the adult population.

THE BEATITUDES

Jesus taught what is commonly called the Beatitudes. They are found in Matthew 5: 3-12. What they are will be indicated by the comment on each one. There is not space in this article to both quote them and comment on them. Read them in connection with these comments. The poor in spirit are blessed because God is near and saves them since they tremble at his word. Read Psalms 34:18; Isaiah 66:2; James 4:6-10. They that mourn are blessed and shall be comforted when it leads to repentance, 2 Corinthians 7:9-10. The meek are blessed and shall inherit the earth in the sense that whatever they need they shall receive because their meekness or good temper makes people want to see them prosper and will help them when they need it. They that hunger and thirst after righteousness shall be filled; the righteousness of God is contained in the gospel, Romans 1:16-17, which is found in the New Testament. The merciful are blessed for they shall obtain mercy, and a splendid lesson on such mercy with forgiveness is taught in Matthew 18:21-35. The pure in heart are blessed and shall see God. The heart is purified by faith, Acts 15:9, which comes or is received by hearing the word of God, Romans 10:17. The peacemakers are blessed and shall be called the children of God because they make peace with God by faith, Romans 5:1, which works by love, Galatians 5:6, which consists of walking after God's commandments, 1 John 5:3, found in the New Testament that makes them children of God; these commandments are believing on the Lord, Acts 16:31, repentance of sins, Acts 17:30, and water baptism, Acts 10:47-48, which makes believers children of God, Galatians 3:26-27, when they confess that Jesus is the Son of God, Acts 8:35-39. How this baptism is administered is shown in Matthew 28:19 and Colossians 2:12. Those persecuted for righteousness sake are blessed for theirs is the kingdom of heaven.

Moreland Notes

Mrs. Gussie M. Baker, principal of Moreland school, made it known that another teacher, Mrs. Gibson, has been added to the teaching staff beginning Monday, March 3. She will assist Mrs. Baker with the second grade reading groups.

With the coming of good weather, baseball is in full swing at Moreland.

Although the manpower shortage is a problem, the students have been organized into two teams to compete with each other during recess and P.E. periods.

Michele Chichie is the student

manager and he is doing a good job at it. Main Hiroshi, George Nelson, Tommy Hall and Manuel Macias have shown good form in recent practice games.

The seventh grade has had an average of 95 percent in spelling for the past six weeks.

The finishing touches are being put on the posters and everything is being prepared for the big St. Patrick's Day dance which is to be held at the clubhouse March 15.

Thursday, Feb. 27, was a mini-mum day. The teachers attended a meeting and visual aids demonstration held at Campbell Grammar school auditorium.

Angel on My Shoulder, 2 Days

Playing at the Campbell Theater for only two days is "Angel on My Shoulder."

Paul Muni, Anne Baxter and Claude Rains are the marquee names in Charles R. Rogers' latest production, a comic fantasy reminiscent of such successes as "Here Comes Mr. Jordan" and "A Guy Named Joe." The picture starts with a bang.

Muni portrays a gangster who, upon being shot by a trusted lieutenant, finds himself in Hell, the special effects required for the picture of which locals were admirably conceived and executed by Harry Redmond, Jr., Rains, whose characterization of the Devil is so persuasive that it's no wonder his

kingdom is crowded, sees in the gangster's amazing resemblance to a certain upright judge an opportunity for mischief. The gangster is agreeable to the Devil's plan, since it will afford him an opportunity to avenge himself upon his murderer.

The gangster's soul, therefore, is transferred into the judge's body. Here luck, or Providence, takes a hand, and every one of the gangster's actions results in good rather than evil. To the Devil's dismay, the judge's reputation and influence are enhanced, rather than impaired, by the gangster, who further ruins the scheme by falling in love with the judge's fiancée, a role in which Ann Baxter is not too happily cast.

Even the planned revenge fails to come off, and at the end the Devil is forced to admit defeat. He retires to his own domain, taking the doomed gangster with him, after the later has extorted from the Devil a promise not to molest either the judge or his fiancée in the future.

Among the supporting players, Hardie Albright is outstanding.

Grammar School Notes

Mr. Henley, district superintendent of schools, states that preliminary plans for a new school building have been completed.

Three hundred yards of dirt for the primary yard will be furnished. It is hoped that the yard will be graded this week.

The school district is making a survey to determine its probable methods of handling increased enrollment for next year.

A county-wide teachers meeting was held here February 27 on audio-visual aids. A demonstration was given by Mrs. Marjorie Fokkett on the use of motion pictures in the classroom.

Mitchell Madison, H8-2.

Miss Wilkinson's 8th grade pupils are doing perspective drawing in art. The girls are making dresses in home-making. The boys are making lamps and what-not shelves in shop.

Their Good English club officers are Virginia Veitenheimer, president; Melvin Miranda, vice president; the secretary has moved so a new one will be elected at the next meeting.

Their Red Cross representative is Tommy Wagner and juryman is Pat Williams.

In their class room they have charts which are on Participation and Citizenship. The one on participation is for different things the children do. If they belong in the Glee club or orchestra or do something outstanding they get a star. The one on Citizenship is like the one on their report card. If they do something wrong they get a check mark.

Dan Livaay—H-8-2.

Mrs. Phillips' 7th grade home-making classes have finished making their aprons and are bringing magazine pictures of correct and incorrect shoes to wear to school.

Their next subject will be cooking. They have note books for cooking and along with cooking they are going to have good grooming.

The four eighth grade classes are starting sewing and most of them are making dresses. Some are making pajamas and full skirts.

Louella Holt—H-8-2. Mrs. Sourisseau's 8th grade room is decorated quite attractively. The border is a flower scene with different colored flowers. In art they are making different kinds of paper. First they made crepe paper and now they are making marble paper.

In science they are making a unit on astronomy, which includes drawings of the planets, sun and moon.

CSAA Supports Highway Program

Increased highway user taxes are inevitable if California is to have an adequate and safe highway system, the California State Automobile Association said today in advocating a start as soon as possible on a statewide program of highway modernization.

New highway user taxes advocated by the motorists' organization were increase of 2 cents per gallon in the gasoline tax, 4 1/2 cents per gallon in the diesel fuel tax, a proper increase in commercial vehicle taxes so that these vehicles will pay a proportionate share of the cost of highway improvements, and a nominal fee for driver's licenses to aid in support of the Division of Drivers' Licenses and the California Highway Patrol. Recommended also is a simplified method of computing "in lieu" taxes to provide for annual depreciation, with a minimum fee of \$1.

The Automobile Association opposes any increase in the \$3 motor vehicle registration fee. The association also is against the proposal to finance the expressway system through collection of tolls.

Allocation of state highway construction funds, the Association believes, should be made on a state wide basis of need, so that continuity in construction of the statewide system will be achieved. The Critical Deficiency Report of the state highway engineer, when combined with the program for additional metropolitan freeways, is believed by the association to justify an equal allocation of highway funds between the 45 northern and 13 southern counties. The association also urges that a proper balance between rural and metropolitan highway improvements be insured by a further allocation of the funds to each of the two north and south county groups.

"Prompt action to correct existing critical deficiencies in California's highway system is urgent," Dr. William B. Harms of Berkeley, president of the California State Automobile Association, said. "Street and highway development has fallen steadily behind the requirements of traffic during the last 15 years, and it has now become self-evident that increased taxes must be imposed on highway users in order to bring about a proper balance between traffic and safety needs and highway improvements."

In supporting Gov. Warren and the Collier committee position on highway needs, Dr. Harms also pointed out that the longer the modernizing of the highway system is delayed, the greater will be the cost which must ultimately be borne by highway users. The proposed program as approved by the association will mean an average increase in highway user taxes per automobile of \$13.50 per year. The benefits derived from a modern, safe and efficient highway system will, in the association's view, far outweigh the small cost to each motorist.

AGRICULTURAL EXTENSION SERVICE

PLAN FOR '47 FAIR

M. S. Beckley, Assistant Farm Advisor, urges livestock raisers to plan for cattle, sheep and swine exhibits at the 1947 Santa Clara County Fair now.

Outstanding sections last year were the feeder cattle exhibits of pens of five weaners, heifers, and steers, and yearlings. Three breeds Hereford, Angus and Shorthorns are the main line of feeders which can include crosses. All breeds bulls. The cattlemen are interested must have used reistered purebred in an auction at the Fair this coming fall to move some of these feeders.

The swine breeders will be selecting their exhibits the next three months and the Santa Clara County Fair committee urges a large swine show.

Santa Clara county sheep men will have a wool section. Sheepmen will be shearing in the spring so plan to save some of your wool to show at the 1947 Fair. Full information in a bulletin on wool can be obtained from the Agricultural Extension Service, 201 Post Office Bldg., San Jose. Santa Clara County needs more sheep as they utilize grass that becomes fire hazards around buildings and fences, as well as fitting into many farm programs.

INSECTS POLLINIZERS

Since cherries are pollinated only by insects—mainly bees—the growers should make certain that bees are present during the blooming period. Few wild bees are found in an intensive fruit section, therefore, cherry growers must either keep bees themselves or import colonies for the season in order to obtain a maximum crop set.

One hive per acre, distributed as widely as possible throughout the orchard is desirable. Since it is impractical to distribute one to each acre, they are usually grouped to facilitate orchard operations and handling.

If you desire further information regarding any phase of the Extension Service we will be glad to talk with you. You may come to the office at 201 Post Office Bldg., or call Columbia 3866.

CARE OF YOUR IRON

Mary Lou Saunders, Assistant Home Demonstration Agent, says

what you get out of your electric iron largely depends on the care you give it. For example, she says you should always take hold of the plug when detaching a cord from an outlet or an appliance. Pulling on the cord may loosen the connections or even pull the cord from the plug.

It is always preferable to connect the iron to a convenience outlet. A 1,000-watt iron should never be attached to a drop cord. The standard light sockets is designed to carry only 250 watts.

If you disconnect the cord from the iron while the current is on that may cause sparking. In time, this will ruin the plug and may necessitate replacement of the connector terminals on the iron.

Let the iron cool before storing it. Keep the cords clean and dry. You can remove the starch from the sole plate by wiping with a damp cloth. It is a good idea to occasionally rub the sole plate lightly with paraffin or beeswax and polish it with a dry soft cloth.

For additional information about this and other laundry equipment send for that free bulletin, Methods and Equipment For Home Laundry, at the Agricultural Extension Service, 201 Post Office Bldg., San Jose.

EMPLOYMENT OFFICE MOVES

The San Jose office of the California Department of Employment has moved to new quarters at 49 East St. James street, according to the announcement of Wade Sargent, manager of the California State Employment Service, and Francis Bridges, manager of the Unemployment Insurance division.

Both functions of the department of employment, the employment service and the unemployment insurance benefit payments, have moved from their present quarters at 215 West Santa Clara street to the new location.

The phone number is unchanged and will continue to be Columbia 4646.

Campbell Court Notes

By Judge Blaine

Probation theoretically includes provision that the defendant must refrain from drink. Thus in effect he is sentenced to the water wagon. But where is the social center in which only water is served?

Long before this community had bars it had the blacksmith shop, the barber shop, and the general store, all "dry" social centers. With the barber shop and general store keeping open late at night. In these places local philosophers dispensed their wisdom in loafing leisure. But today you are not welcome to loaf in either store or barber shop, even in the day time.

The blacksmith shop in the old sense is no more. There remains as a "dry" social center only the sidewalk, and loafing leisure has now become somewhat a curbstome affair. Some folks complain about walking around little groups of talking men. Far better stop to appreciate what this opportunity for spontaneous sociability means. But there should be a better place.

This community — every small community — needs an Adult Center inspired by the same kind of public spirit that is back of a Youth Center. If we incorporate and eventually build a Courthouse, the trial room itself might be fitted to serve as an Adult Center. Thus law enforcement and loafing wisdom might go hand in hand.

ago about the forgotten man. Who was he? We seem to have forgotten. Today we might nominate for this honor the man who needs a convenient loafing place, a center where wisdom may be spoken and heard, and where a man on probation is welcome to park his water wagon.

A fitting text for this sermon might be: "Talk is cheap, but it takes money to buy whiskey."

Talk is one of the cheapest things in the world, and one of the most necessary. It is easy enough to put a man on probation. It is far less easy for him to find a good social substitute for a bar. Up town in this burg you can't even buy a parking place for a water wagon!

Very definitely, the forgotten man is the man on the water wagon.

"... I do not believe any business, particularly in a growing State like California, can intelligently make a budget three years in advance. Neither can the Legislature, intelligently and fairly, appropriate money more than two years in advance."

GOVERNOR EARL WARREN*
October 8, 1946

YES,

THE OIL INDUSTRY BELIEVES IN...

SUPER HIGHWAYS

SAFE HIGHWAYS

GOOD ROADS AND MAINTENANCE

BUT..

It isn't necessary to increase the State gasoline tax NOW to accomplish this program.

All major improvements in California highways for the next four years, including the next fiscal year, can be financed out of available revenues and still leave a surplus in the State Treasury. This has been shown by figures furnished by competent highway engineers.

The advocates of an immediate increase in the State gasoline tax base their arguments on a 14-YEAR STATE HIGHWAY PROGRAM.

No one can intelligently predict a State's needs that far in advance (see press statement above).

So, before the State increases the gas tax — thereby stockpiling additional millions of YOUR MONEY — we believe that the State should show you that a specific need for your money exists NOW.

YOU HAVE A RIGHT TO KNOW.

Right now the California Legislature is considering this increase.

WHAT YOU CAN DO:

Write NOW to your Assemblyman and Senator telling them you want to know more about the need for your money before your gas tax is increased!

A penny postcard will do it. Do it now, while you're thinking about it!

No more of this!

Sometimes the mistake of cheap and sub-standard house wiring is more quickly felt than seen. And its faults are as striking as a blow on the head.

In a good, modern house wiring job a lot of thought should be given to how you and your family are going to use that house for your comfort, convenience and safety. This forethought helps avoid dark halls, closets and stairways, dipping lights from overloaded circuits or the stringing of long, unsightly cords.

When you build or remodel, check these five important elements in good and adequate wiring:

1. enough outlets for lamps and appliances,
2. proper placement of outlets,
3. enough switches,
4. adequate wire size (at least No. 12 size),
5. plenty of circuits for present and future needs.

Write in or come in to any P. G. and E. office for details on "Certified Adequate Wiring" and get your copy of the 16-page booklet—"Electricity in Your Home Plans."

'Cats Beat Bucs

Aided by a height advantage, the Wildcats of Los Gatos triumphed over the Campbell Bucaneros 36 to 24 in last Friday night's terrific contest at the local gym. The victory gave the 'Cats undisputed claim to the title. In the preliminary game the Buc '30s played swell ball and licked the boys from "Gatos" 23-18.

The first of the varsity contest saw some very high scoring and Los Gatos had a 27-14 lead at the midway point in spite of a 10-10 first period finish. Mel and Levi Estrada led the Buc heavies with totals of 9 and 7 points, respectively, but the Wildcats' Don Panigetti and Dick Raphael tied for high point honors as they each scored 11 points.

The '30's tilt was again highlighted by the fine shooting of Campbell Forward Monte Dayton, who tallied 11 points. Milt Howe and Del Ambler tied for runner-up with four each. Kinnamon, Hubel and Howard scored 4 each for the Wildcats.

These games made the Bucs' final league standings fourth place for the varsity with 5 wins and 3 losses, and the sixth slot with 3 victories and 5 defeats for the lightweights.

In season scoring Captain Levi Estrada came out ahead with 130 points. Following with 95 was Ray

Fish, while Mel Estrada ended in third position with 74. Wayne Buck had 68 markers.

Scoring for the 'Thirties was led by Dayton with 85. Bill Hagginetti scored 68 and Ron La Mar 49. Del Ambler finally won the hard-fought for fourth place with 31.

Season records were: Varsity, 8 wins and 9 losses; 'thirties 6 wins and 11 losses. All in all, it was a fairly successful season for Coach Robert Robertson and his players.

The all-SCVAL honors befall on several Campbell players. Captain Levi Estrada, who was sixth in league scoring, was second string center on the varsity, and Forward Ray Fish obtained honorable mention. Captain Dayton received honorable mention in the 130 division.
